

Dear Prospective Gas Compressor Association Member:

Thank you for considering membership in the Gas Compressor Association (GCA). The GCA is a professional trade organization dedicated to the enrichment of its members and their industry – the products and services of the natural gas compression market.

As an active association of rental fleet owners, packagers, manufacturers, service companies, and experts, the GCA provides:

- **Organized Meetings & Expo:** Members meet several times each year. The purpose of these meetings is to provide valuable and relevant content and networking opportunities. The annual highlight is the GCA Expo, an event where members and vendors meet to network, learn, and showcase products and innovations for the gas compression industry.
- **Statistical Data Reports:** Monthly statistical reports highlight historical facts and trends for the natural gas compression industry encompassing manufacturing, packaging, and rental fleet operations. Additionally, quarterly forecasting reports offer comprehensive insights into the industry's trajectory, providing a forward-looking perspective on the gas compression market.
- **Environmental Programs:** Tailored for GCA members, these programs offer education on environmental regulatory impact and provide technical subject matter expertise to government entities during legislative events.
- **Health & Safety Program:** Safety measures are critical within our industry, prompting collaborative efforts to compile and compare industry safety data and share best practices.
- **Education:** Member companies benefit from speakers delivering timely, informative, natural gas compression industry specific presentations. We proudly partner with colleges offering natural gas compression programs to assist in developing the workforce of the future.
- **Human Resources Professionals Program:** Members participate in wage, salary, and benefit surveys and discuss best practices for the unique careers in the gas compression industry.
- **Anti-trust Compliance:** As an association of competitors, we fully comply with Federal, Canadian, and State anti-trust and competition laws.
- **An Opportunity to Participate:** Active member engagement is highly encouraged. In fact, the association's success is a direct result of the expertise and active participation of our members.

We look forward to discussing how the GCA can benefit your company. Please give myself or Alan Moore a call with any questions or comments.

Cordially,

Chris Davis
