

Dear Prospective Member:

Thank you for considering membership in the Gas Compressor Association (GCA). The GCA is a professional trade organization dedicated to the enrichment of its members and their industry – the products and services of the natural gas compression market.

As an active and well organized association of manufacturers, packagers and rental fleet owners, the GCA actively maintains many programs including:

- **Organized Meetings & Expo:** We meet three times per year at locations that are convenient to our members. The agendas for these meetings are intended to deliver value that is relevant to the interests of the general membership. The Expo provides an opportunity for vendors to meet with the members of the GCA.
- **Statistical Data Reports:** Monthly reports highlighting facts and trends covering the natural gas industry from manufacturing, to packaging to rental fleet operations.
- **Environmental Programs:** Designed specifically for GCA members, these programs provide assistance in keeping abreast of the ever-changing EPA rules and regulations. We use the strength of our combined numbers to influence change.
- **Health & Safety Program:** Members participate in an annual safety survey that allows them to benchmark their individual data against the industry.
- **Education:** Member companies benefit from a number of educational opportunities, including subsidized training. At each meeting, guest speakers deliver presentations that are both topical and informative. We proudly partner with colleges offering natural gas compression programs to students interested in the industry.
- **Anti-trust Compliance Program:** As an Association of competitors, we comply fully at all times with Federal, Canadian and State anti-trust and competition laws.
- **An Opportunity to Participate:** The GCA encourages the active involvement of its members. In fact, the success of our Association is the result of members' involvement.

We look forward to discussing how the GCA can benefit your company. Please give myself or Alan Moore a call with any questions or comments.

Cordially,

David Walkinshaw
GCA Membership Committee Chairman
